Fire Chief's Report

February/March 2017

As I prepare my monthly report, we are in the last days of preparation for our move to the new building, and I have several things to complete related to the project today, so my report will be brief.

First of all, I will ask Candyse to include my division reports with this month's packets, since she and I have not had the time to come up with a revised look for the monthly report. Candyse has been dealing with some health issue, and they will likely continue for another month or so, so we will work on the revision as time permits.

Next, I wanted to thank my staff for all of their hard work over the past few months and in the next couple of months. A lot of time has been spent purging, packing and getting ready for the move. In addition, Chief George has been a great help to us over the past two weeks, as I have been on vacation with my family in Florida. Thank you Gerald.

We continue to work on training issue, which as I mentioned in an earlier report, it seems as though much of our work this year has to do with training. We have instituted some on line training, that I think is working well as a way to supplement our training time, as well as providing a more relaxed and responsive option to our personnel as they work to acquire needed trainings in fire and EMS. We continue to work on identification of a permanent training facility, and we will be meeting with the town soon to talk about acceptable locations. In addition, Chief Allen and Dr. Nosssett are preparing for the beginning of our training and implementation of our Ultrasound machines and treatment options. In addition, as we complete the second phase of our construction process, we will have a better idea of the potential of our north property.

This month is also the month when the Fire Department Instructors Conference (FDIC) comes to town. Many of our personnel will be participating in some of the best training offered to the fire service, right here in our back yard. I will also be attending the annual Executive Fire Officer Symposium at the National Fire Academy, where I continue to participate in the program development committee. Some of our chaplains will be attending a class at Wayne Township next week as they prepare to begin their work with us.

In closing, I would like to recognize Karen Hendershot for her outstanding work the past month. As I stated earlier, Candyse has been experiencing some health issues, and she has been in charge of transitioning us to a new phone system and security card system. With Candyse's need to be off work, Karen picked up both of these projects and ran with them to help us to be successful in making these transitions. Thanks Karen!
