

Parks Department Board Report December 10, 2014 (reporting on November)

Administrative Update

- Held a staff meeting to talk with office and maintenance staff about the remaining 2014 capital improvement projects as well as discussing timelines for the completion of the 2015 capital improvement projects.
- Attended a free grant writing webinar hosted by the Hendricks County Community Foundation.
 Was made aware of a few good resources to reach out to that could provide free support in the
 review of grant applications prior to submitting, but also learned about the proper structure for
 completing a grant application so that it becomes competitive amongst the other applications.
 Because the webinar was geared towards other entities that provide a public service, the topics
 were pertinent and the resources provided will prove helpful.
- Identified which funds need to be requested to encumber for use in 2015 as projects are planned, they just cannot be completed prior to the end of the 2014 fiscal year.
- Reviewed the budget to determine which group transfers need to be approved and completed
 for the end of the year. No additional appropriations will need to be made and the Park
 operated within its appropriated budget while exceeding revenue for the 2014 fiscal year.
- Worked in cooperation with our marketing and outreach contacts at IU Health West to obtain the hosting rights for a joint educational program that supports Cancer Patients through Livestrong, between IU Health West & Hendricks Regional Health. This will be hosted by the Park and is basically held in cooperation with us for cross marketing purposes (our name will be on all marketing materials) and more so for the benefit it provides to the community. The events will be open to the public and will cover the following two topics: the February 17th topic is, Coping with the Stress of Cancer and the May 19th topic is, Symptom Management and Nutrition During and after Treatment. I am excited to see the two entities working together to provide this awesome resource, and I couldn't be happier that will be will the supporting entity to help them achieve their goals of providing this free service to the public.

Events

- Insanity/PiYo Classes Continue to host Insanity classes at the Pavilion Center Tuesday nights at 6pm and PiYo classes following the Insanity class beginning at 6:45pm. The PiYo in the Park has been discontinued for the cold weather season until it warms back up again in the spring!
- Whipple Walk This is the first in a series of "Whipple Walks" which are scheduled interpretive hikes that are open to the public free of charge and have a different topic based on current seasons or happenings in the Park. They are geared towards nature lovers and those interested in education about nature. Our Special Events Coordinator is a certified naturalist and so is a perfect fit for programs like this one. There will be other programs we build into 2015 that will serve more direct populations that are similar in nature (i.e. walks), more specifically upcoming will be walks aimed at the senior citizen population. The advertising for the walk was not what it

- should've been and as with everything else with the Park, if it is not really advertised, it's not much of a success. The next walk will be highly publicized so we hope for a larger turnout!
- Holiday in the Park & Holiday Arts & Crafts Fair Large amounts of planning, marketing, and
 outreach happened during the month of November in preparation for the two big events taking
 place in December. You might have noticed the decorations at the Pavilion Center those are all
 a part of what we hope to build each year into a bigger holiday event in the park! Details on
 participants for the events will come during the January board meeting.

Pavilion Center Update

• Each month as a new addition to the board report, will be a breakdown of the events rented through the Pavilion Center. In addition to it be a revenue generator for the Park, it is also a great resource for our community to use and become familiar with. We are proud of the venue and the diversity of events that take place here, and want to share them with you!

```
11/01/14 - Wedding Set-Up, 25 people
11/02/14 - Wedding, 150, Grafton Peek
11/04/14 - Avon Intermediate School Training, 42, Self-Catered

11/21/14 - Wedding, 150, MCL Catering
11/25/14 - Twp. Pitch In, Self-Catered
```

Maintenance Update

- Please see attached document detailing the breakdown of labor hours for the month of October.
- Received one of three bids back on the gutter project for the Pavilion Center we have asked
 for additional information to be provided from that company to help us make a more informed
 decision. This is one of the projects which we are asking for an encumbering of funds for due to
 the weather and the fact that the Holidays have delayed receiving information about the
 estimates back.

- The SmarteLight notification system has been installed and activated in the Pavilion Center lift station. Upon activation, our Sales Rep Dave, with BBC came on-site to demonstrate the product and ensure that it was setup correctly and fully operational. This will be a great addition to being able to monitor the lift station remotely, especially being that we feel we can reasonably forecast that the second pump will be on its way out within the next year or so (unless the first pump going down was just a matter of circumstance).
- A 4x4 utility vehicle was purchased from Plainfield Equipment for use by Park staff for maintenance related tasks. The selected vehicle was a New Holland Rustler. The park was able to trade-in the older Bobcat and pay a small out of pocket (in comparison) amount to purchase the New Holland. The goal of this purchase was to facilitate the proper use of equipment for the tasks at hand. We aim to extend the life of our equipment by not just maintaining them, but by using them for task appropriate projects. The New Holland will fill the existing gaps at the Park at this time and for the foreseeable future while we still have use of another Bobcat to perform the tasks appropriate to that piece of equipment.
