Fire Chief's Report

November 2016

As I write this report, I find it hard to believe that we are at the end of another year. Several of us at the office have commented that it seems as though we are extremely busy. I have come to the conclusion that I guess being busy is a manifestation that things are going on and that we are moving forward.

There are many things going on as we come to the close of the year. We have just completed performance evaluations for this year, with exception of a few stragglers that will be done soon. In addition, our second round of feedback forms have been completed and leadership is in the process of reading the feedback and looking for ways that we can address the needs that have been brought forth. As I reflect back on the process, at the beginning, it seemed a bit cumbersome, but we have refined the process and I believe that it is much more effective and efficient. I can also look back at some of the suggestions that have been made and see at least two suggestions that have been made that we have acted upon. One is the suggestion of purchasing a quint as a reserve truck to function as a reserve for our engine or ladder when needed. Prior to that, we only had a reserve engine and did not have a backup for the ladder if it was out of service. With the quint, it can perform both functions. The second was the suggestion about finding funding for off duty pay for training for personnel. Last year we identified some refund money from Medicare that we placed into a line item to fund a flat rate of pay for our personnel when they attend training off duty. This is a set amount and each person has access to a limited amount of funds to attend trainings and help pay for cost associated with that training, that they would otherwise, have to pay themselves.

As you all know, we have been working feverishly over the past several months to finalize our transition to the INPRS 77 Police/Fire Retirement Fund, and we went live on December 1 this month. We still have some kinks to work out, some acceptances to receive and some fund transfers to complete, but we are happy to have completed this process. We feel that this transition is something that has been a desire of our personnel for a long time, and we are glad that we have been able to work to provide this opportunity to our personnel. Thank you to the board for your support and understanding in the transition.

This morning, a contingency of personnel left for St. Johns, Indiana to pick up our new aerial. The final touches have been completed on the truck and we hope to have it in service soon. Our current aerial will be sent away soon to it's new home in Wisconsin. We are also finishing the final work on our quint that will function as our reserve engine and ladder. Our new ambulance is scheduled to be delivered between Wednesday and Friday of this week. We have also received the

estimate for the remounting of our next ambulance, which is on the CUM schedule for next year, so we have to get started on that project soon.

Last month, our new cleaning lady, Beverly, started with us. I must say, it has been a joy to have such a clean building and a lady how is so dedicated and driven to make sure our surroundings are in good shape. I have heard many good comments from staff about her performance and the condition of the building.

Last month, we completed several of the components of our Wellness programming. We had Jeff Dill from Firefighter Behavioral Health present training on stress and suicide prevention. We also had Appraisen Financial provide training on financial assistance and counseling, and our Peer Counseling training was conducted by Dr. Robert Smith. Last month, three of our Hendricks County Peer Counselors, including Battalion Chief Jon Josephs and I, had the opportunity to exercise our new training in Crawfordsville. Crawfordsville Fire had personnel that responded on a pediatric fatality, and they were concerned for the well being of their personnel. They reached out the Indianapolis Fire Department (IFD) for assistance, and Dr. Smith who is our program director, as well as IFD's, asked three of our responders to assist with the response to Crawfordsville. So our training and skills are already being put to use. Thanks you again to the board for your support and assistance in the development and delivery of the program.

Last Friday evening, our five new firefighters, graduated from the Wayne Township Fire Academy. It was quite an honor to be a part of the program and I wanted to thank Suzanne and Ed Martin (from the safety board), for attending the ceremony. Don was able to swear in our new personnel and we had a great time shearing this special occasion with the graduates and their families. The new hires are attending some preliminary training here at headquarters this week and will begin their new shift assignments at the end of the week. A big thanks also goes out to Wayne Township for allowing us to send out personnel to their academy, and for also allowing our officers and member to be involved in the recruit school.

Things are really moving along with the new building. We have construction meetings every other week, and the further along we get, the faster it seems to move. I will be giving the board a more detailed update on the financial and construction status of the building at this months meeting.

As I close this month's report, I would like to recognize 6 different people. First I would like to recognize our newest members, Nickolas Cain, Jonathon Merryman, Christopher Lewis, Christopher Ward and Mitchell Jenkins. I would also like to recognize Chief George. As I talked about earlier in the report, there has been a great deal of work required to finalize the conversion to the 77 Fund. As we have worked through the process, Chief George has taken it upon himself to help personnel to navigate the many obstacles in the process. Many times, this help required time outside our regular weekly work schedule, and was often times, work that should have been done by personnel, but he gladly have all of the assistance that he could to help resolve issues. Thank you Gerald for your timeless efforts and for making the transition such a success!
