

**Minutes**

**Washington Township Board – Town Council Work Session**

**Plan of Reorganization**

**June 20, 2013**

**Township Board Members Present:** Suzanne X. Conger, Michael J. Lynch

**Town Council Members Present:** Marcus Turner

**House Bill 1116**

Don met with one of the Reorganization Committee members and it was brought to his attention that it was the perception that HB 1116 came about as a way to stop the study. Don and Laurel Setser, Avon-Washington Library, discussed how House Bill 1116 came about and that it was not being used as a way to stop the reorganization study.

**Review of Plan Items that have Consensus**

The Parks Departments would be combined and both Police and Fire would continue with the jurisdictions that they currently serve. Senate Bill 459 would require the plan to be modified for Township Assistance and the emergency loan language will be removed from the plan.

**Continuation of Meeting**

As only three board/council members were present at the meeting, there was discussion as to if the rest of the agenda should be continued during this workshop as normal. After discussion the consensus was because of the attendance issue, it would be sent back to each board/council to see if both parties still wish to continue with the study. Next meeting will be determined after receiving the board/council's decision.
