

WASHINGTON TOWNSHIP BOARD MEETING
OCTOBER 25, 2016
TRUSTEE REPORT

1. Tonight under old business, we will be requesting approval of the 2017 Township Observed Holiday Schedule and the 2017 Township Board Meeting Schedule as submitted at your meeting last month.
2. Also under old business, there will be an update by the Parks Dept. on the Pecar project and an update by me on the township/fire headquarters project.
3. Under new business tonight, we will be submitting the proposed 2017 Township Budget for final approval.
4. Under new business our public assistance director will be requesting an amendment to the 2016 Township Public Assistance Guidelines. The reason for this request for approval at the October Board meeting is that we don't have a cap on our utility assistance and the state policy says we can only cap as long as we have it in our guidelines. Monica Bales will have the proposed cap amendment in your packet.
5. Under new business, we will also discussing the ladder lease and the township record retention. We will be requesting approval for both at your November Board meeting
6. As a reminder at the November and December Board meetings you will be asked to approve additional appropriations for Rainey Day, moving amounts from one group to another group within a fund, etc.
